THE Purchaſe of Ground and Buildings for the Academy, the Alterations and Improvements that were neceſſary to accommodate the Scholars, and the furniſhing of the ſeveral Schools, having, all together, prov'd an Expence far beyond their firſt Expectation, the Truſtees, deſirous as ſoon as poſſible to compleat their Plan, for the Good of the Publick and of Poſterity, find themſelves under a Neceſſity of obtaining ſome Aſſiſtance by way of Lottery: And as ſeveral Lotteries have, ſince the Founding of this Academy by Subſcription, been carried on and encouraged here, for the Benefit of Schools and Colleges in the neighbouring Provinces, 'tis hoped it will not be thought leſs reaſonable that we ſhould at length have one for the Benefit of our own. Thoſe who in this way have lately contributed liberally to Matters of mere *external Ornament* to the City, will doubtleſs more chearfully encourage the Academy; an Undertaking which aims at *adorning* the Minds of our Youth with every Excellence, and rendering them really uſeful and ſerviceable Members of Society.

EXTRACTS from the JOURNAL of the HOUSE of BURGESSES *in* Virginia.

Auguſt 24, 1754.

MR. *Waller* reported, that he had, according to Order, waited on the Governor with the Addreſs of this Houſe, to deſire that his Honour would be pleaſed to order to be laid before this Houſe, a Copy of the Capitulation enter'd into by Colonel *George Waſhington*, with the *French*, upon the late Engagement; and ſuch Letters or Inſtructions as he had received from his Majeſty, in relation to the *Obio*, ſince the laſt Seſſion of Aſſembly; and that his Honour was pleaſed to ſay, that he would order a Copy of the ſaid Capitulation to be laid before the Houſe, as ſoon as it could be got ready; and that he had not received any Inſtructions from his Majeſty, or Letter from any publick Officer, in relation to the *Obio*, ſince the laſt Seſſion of Aſſembly.

A Meſſage from the Governor was delivered by Mr. *Walthoe*.

Mr. Speaker,

"I am commanded by the Governor to lay before your Houſe, Copies of ſuch Letters and Orders as he has, from Time to Time, given to the reſpective Officers; together with ſuch Letters as he has received from his Majeſty's Governors on the Continent, and the Officers, in relation to the Expedition, with a joint Letter from ſome of the Officers, recommending Mr. *Peyronie*, for his late Behaviour, to his Protection and Favour."

Auguſt 29. Upon a Motion made, the Houſe reſolved itſelf into a Committee to conſider of Ways and Means to raiſe *Twenty Thouſand Pounds*, agreeable to Yeſterday's Reſolution; and after ſome Time ſpent therein, Mr. Speaker reſumed the Chair, and Mr. *Charles Carter* reported, that the Committee had come to two Reſolutions thereon, which they had directed him to report to the Houſe; and he read the ſame in his Place, and afterwards delivered them in at the Table, where they were again twice read, and agreed to by the Houſe, as follow:

Reſolved, That the Sum of *Twenty Thouſand Pounds* be raiſed for the Protection of his Majeſty's Subjects in this Colony, againſt the Inſults and Encroachments of the *French*, by a Poll-Tax.

Reſolved, That *Two Shillings per* Poll, be levied and accounted for, on the tenth Day of *December* next, and that *Three Shillings*, or thirty Pounds of Tobacco, be levied and accounted for on the laſt Day of *July* next.

Ordered, That a Bill be brought in purſuant to the ſaid Reſolutions.

Auguſt 30. Upon a Motion made,

Ordered, That an humble Addreſs be made to the Governor, to deſire that his Honour will be pleaſed to promote Mr. *William Peyronie*, in the *Virginia* Regiment, for his late gallant Behaviour, and that Mr. *Landon Carter* do wait on him with the ſaid Addreſs.

Upon a Motion made,

Ordered, That the Thanks of this Houſe be given to Colonel *George Waſhington*, Captain *Mackay* of his Majeſty's independent Company, and the Officers under his Command; Major *Adam Stephens*; Captains *Robert Stobo*, *Peter Hog*, *Andrew Lewis*, *George Mercer*; Lieutenants *Thomas Wagener*, *William Polſon*, *John Savage*, *James Towers*; Enſigns *William Bronough*, *John Mercer*, *William Peyronie*, and *James Craig*, for their late gallant and brave Behaviour in the Defence of their Country; and that the Speaker be deſired to write to Colonel *Waſhington*, to acquaint him of the ſame, to deſire him to inform the Gentlemen of it, and to communicate to the Soldiers the juſt Senſe this Houſe has of their Bravery alſo.

Mr. *Bland* reported, that the Committee appointed had, according to Order, prepared an Addreſs to the Governor, which he read in his Place, and afterwards deliver'd in at the Table, where the ſame was again twice read, and agreed to, and is as follows.

SIR,

'WE his Majeſty's dutiful and loyal Subjects the Burgeſſes of *Virginia*, now met in General Aſſembly, beg Leave to aſſure your Honour, that we entertain the juſteſt Senſe of your Concern for the Safety of this Dominion; and to return your Honour our unfeigned Thanks for your Condeſcenſion, in readily laying before us your Book of Letters and Inſtructions to the Officers of the Forces ſent out upon the Expedition to the *Obio*, by which it appears you have given the moſt proper Orders, and purſued the moſt prudent Meaſures for defeating the Deſigns of the *French*.'

Ordered, That the ſaid Addreſs be fairly tranſcribed, and preſented by the whole Houſe.

Auguſt 31. Mr. *Landon Carter* reported, that he had, according to Order, waited on his Honour the Governor with the Addreſs of the Houſe, to deſire that his Honour would be pleaſed to promote Mr. *William Peyronie*, in the *Virginia* Regiment, for his gallant Behaviour in the late Engagement, to which his Honour anſwered, that he would promote him, and was pleaſed that the Sentiments of this Houſe concurred with his own.

Mr. Speaker, with the Houſe, went up, and being returned, reported, that he with the Houſe had attended the Governor in the Council-Chamber, and preſented the Addreſs of this Houſe to him, to which he was pleaſed to anſwer,

Mr. Speaker, and Gentlemen of the Houſe of Burgeſſes,

I *Return my ſincere Thanks for your kind Addreſs. The Proſperity, Safety and Happineſs of this Dominion, is, and ſhall be, my conſtant Study.*

It gives me great Pleaſure and Satisfaction to obſerve your Approbation of the Inſtructions given by me to the Officers on the Ohio *Expedition, and the Operations I have, from Time to Time, directed and ordered, for defeating the Deſigns and unjuſt Encroachments of the* French.

You may be aſſured I ſhall continue to do every Thing in my Power, and to the beſt of my Capacity, in bringing this juſt Expedition to an happy and agreeable End.

A written Meſſage from the Governor, by Mr. *Walthoe*.

Mr. Speaker,

'THE independent Companies from *New York* and *South-Carolina*, being, upon their Arrival, in Want of Proviſions and other Neceſſaries, I gave Orders for their immediate and conſtant Supply.

'Theſe Forces were commanded here by his Majeſty, to defend and protect this Dominion from the Encroachments and cruel Inſults of the *French*: Agreeably therefore to the Practice of his Majeſty's other Plantations, who always provide Proviſions and Neceſſaries for his Majeſty's Forces, when they are in actual Service, the Accounts were laid before the Committee, who diſallowed thereof. I am therefore obliged to refer them to the Conſideration of your Houſe. As I am fully of Opinion it would be a grievous Hardſhip to this Country, in our preſent Situation, to maintain Forces that probably may be hereafter ſent out to our Aſſiſtance, I have in the moſt preſſing Manner deſired proper Power to draw for their Subſiſtance, in which I have ſtrong Hopes.

'Beſides the Accounts abovementioned, Captain *Whitwell* has a Demand of *Forty-ſeven Pounds Six Shillings, Sterling*, for the Pilotage of his Majeſty's Ship *Triton*, to *Alexandria*, with the Troops from *New York*; as alſo *George Burnett*, Purſer of the ſaid Ship, a Demand of *Forty-one Pounds, Nine Shillings and Two-pence*, for victualling the ſaid Troops.'

Ordered, That the ſaid Meſſage be taken into Conſideration on *Monday* next.

September 2. The Order of the Day being read, for the Houſe to take into their Conſideration the written Meſſage from the Governor, delivered on *Saturday* laſt;

The Houſe reſolved itſelf into a Committee upon the ſaid Meſſage, and after ſome Time ſpent therein, Mr. Speaker reſumed the Chair, and Mr. *Charles Carter* reported, That the Committee had had the ſaid Meſſage under their Conſideration, and had come to two Reſolutions thereupon, which they had directed him to report to the Houſe, which he read in his Place, and afterwards delivered in at the Table, where they were again twice read and agreed to by the Houſe, as follow:

Reſolved, That an humble Addreſs be made to his Honour the Governor, to expreſs the juſt Senſe we entertain of his Majeſty's paternal Care, in ordering the independent Companies from *New-York* and *South-Carolina* to this Colony, for our Defence and Protection from the Encroachments and cruel Inſults of the *French*; and to aſſure his Honour, that nothing but the extreme Poverty of the People of this Colony, already labouring under grievous and heavy Taxes, could induce us to diſagree to the Paying for the Proviſions and other Neceſſaries for thoſe Companies; and as our Circumſtances are ſuch, we doubt not but his Majeſty will be graciouſly pleaſed to extend his Goodneſs toward us, and order ſuch Proviſions and other Neceſſaries to be paid for out of ſuch Supplies as are provided by Parliament for the Support and Maintenance of theſe Forces.

Reſolved, That the Demand made by Captain *Matthew Whitwell*, Commander of his Majeſty's Ship *Triton*, of *Forty-ſeven Pounds Six Shillings, Sterling*, for the Pilotage of the ſaid Ship from *Hampton-Road* to *Alexandria*, with the *New York* independent Companies; as alſo the Demand of *George Burnett*, Purſer of the ſaid Ship, for the Sum of *Forty-one Pounds, Nine Shillings and Two-pence*, for victualling the ſaid Forces in their ſaid Paſſage; are in no Sort chargeable on the Inhabitants of this Colony, ſince the ſaid Ship and Forces belonged to his Majeſty, and were immediately in his Service, and we doubt not but they will be demanded and allowed in *Great-Britain*.

September 4. A written Meſſage from the Council, by Mr. *Walthoe*.

Mr. Speaker,

"In Anſwer to the Meſſage in Writing, juſt now ſent up from your Houſe, the Council acquaint you, that the Bill, intituled *An Act for raiſing the Sum of* Twenty Thouſand Pounds, *for the Protection of his Majeſty's Subjects in this Colony, againſt the Inſults and Encroachments of the* French, *and for other Purpoſes therein mentioned*; being loaded with a Clauſe deſigned to compel their Aſſent to the Payment of the Sum of *Two Thouſand Five Hundred Pounds*, which your Houſe had ſingly voted in a late Seſſion, to be paid to an Agent by them appointed, contrary to the ancient and known Conſtitution of this Colony, and to the juſt and long eſtabliſhed Right which the Council have, of concurring in, or diſagreeing to, every Vote for the Diſpoſition of publick Money, the Council have thought it more prudent and juſtifiable in them, to reject the Bill, than to ſuffer ſuch an Alteration in the Conſtitution to take Effect. And the Council cannot help expreſſing their Concern, that the Burgeſſes ſhould place the Safety and Preſervation of their Country, on the ſame Footing with the Payment of a Sum of Money, which the Burgeſſes themſelves, by adding this Clauſe to the Bill, acknowledge to have been by them ordered to be paid, contrary to the known Conſtitution of this Country.

"The Council hope, that the Burgeſſes will not, upon further Conſideration, mingle two ſuch different Points in the ſame Bill, but that they will proceed to the Paſſing ſome other Bill more agreeable to the Conſtitution, for the Security of our Frontiers, in this Time of extreme Danger, in which the Burgeſſes may depend on the Council's hearty Concurrence."

The Houſe proceeded to the Conſideration of the written Meſſage from the Council, and thereupon

Reſolved, That the adding the Clauſe to the Bill, intituled, *An Act for the Raiſing the Sum of* Twenty Thouſand Pounds *for the Protection of his Majeſty's Subjects in this Colony, againſt the Inſults and Encroachments of the* French, referred to in the ſaid written Meſſage, is agreeable to the Uſage of Parliament, and in nowiſe tends to the Alteration of our Conſtitution.

Reſolved, That the Council's having rejected the Bill, intituled, *An Act for the Raiſing the Sum of* Twenty Thouſand Pounds *for the Protection of his Majeſty's Subjects in this Colony, againſt the Inſults and Encroachments of the* French, *and for other Purpoſes therein mentioned*; at this Time of great and imminent Danger, and thereby leaving the Country expoſed to the Ravages of the *French* and *Indians*, is highly injurious to his Majeſty's Intereſt, and the Safety of this Colony.

Upon a Motion made,

Reſolved, That a moſt loyal Addreſs be made to his Majeſty to expreſs our ſincere Attachment to his Royal Perſon and illuſtrious Houſe, and humbly to repreſent our deep Concern, that the Supplies neceſſary for the Defence of this Colony againſt the Inſults and Encroachments of the *French*, ſhould be interrupted by a Diſpute with the Council, occaſioned by their refuſing to paſs a Bill, intituled, *An Act for raiſing the Sum of* Twenty Thouſand Pounds *for the Protection of his Majeſty's Subjects in this Colony, againſt the Inſults and Encroachments of the* French, *and for other Purpoſes therein mentioned*; on Account of a Clauſe inſerted in it by this Houſe, for paying *Peyton Randolph*, Eſq; *Two Thouſand Five Hundred Pounds*, as Agent for ſolliciting the Affairs of this Colony in *Great-Britain*, and in the moſt dutiful Manner to lay before him our Reaſons for inſerting the ſaid Clauſe.

September 5. His Honour the Governor was pleaſed to prorogue the Aſſembly by the following Speech.

Gentlemen of the Council, Mr. Speaker, and Gentlemen of the Houſe of Burgeſſes,

'THE impending Danger from the violent Incurſions of the *French*, their Threats and Depredations, were the only Motives of calling you together at this Time. And as the Lives, Liberties and Properties of your Conſtituents are in ſuch imminent Hazard, I did not in the leaſt doubt, but that you would, before this, have ſtrengthen'd my Hands with a proper Supply, to fruſtrate their malicious Intentions: And eſpecially, when I receiv'd from you ſuch ſtrong and repeated Aſſurances, that you *were determin'd, on your Parts, to withſtand the impending Danger, and to purſue every Meaſure in your Power, to defeat theſe pernicious Attempts of your Enemies*. I thought I might readily admit the pleaſing Hopes, that *you would effectually provide for your Country's Preſervation, and convince the World, that you had nothing more at Heart, than a zealous Diſcharge of your Duty to the beſt of Kings, and the ſincereſt Regard for your Country's Welfare.*

'How great then, Gentlemen, muſt be my Surprize, and with what Amazement muſt that Country and the World ſee ſuch high Expectations caſt down ſo low! See you called upon in the the Day of your Country's Diſtreſs; hear you declaring your Knowledge of her Danger, and profeſſing the moſt ardent Zeal for her Service; yet find theſe Declarations only an unavailing Flouriſh of Words; and that, inconſiſtent with them, and the Purpoſes of your Meeting, you withhold your Aid, and thereby leave the Enemy at full Liberty to perpetrate their deſtructive and unjuſt Deſigns.

'The independent Companies, ordered by his Majeſty, cloathed and paid by him, and now employed in your immediate Defence, you abſolutely, by your Reſolve to me, deny Subſiſtance to: A Thing unprecedented in any of his Majeſty's Dominions, where they have been employed in their Defence, from Incurſions or threatened Invaſions.

'I have my Maſter's Service, and the Safety and Honour of *Virginia*, ſo much and ſo truly at Heart, that I cannot but be deeply affected at a Conduct ſo contrary to her Intereſt; and not altogether unconcerned for you, *Gentlemen of the Houſe of Burgeſſes*, that you ſhould appear in ſo bad a Light to his Majeſty, and give ſuch ill Impreſſions to the neighbouring Colonies.

'However, as I find you are determined not to do, what your Duty to his Majeſty, and the preſent obvious Danger, indiſpenſably require; I think it proper, to avoid aggravating unneceſſary Expences, particularly inconvenient at this Time; and therefore, to put an End to your longer Continuance here, I do prorogue you to the Seventeenth Day of *October*; and you are accordingly prorogued to that Time.'

BASTIA, July 2.

THE Rebels having charged ſome Peaſants, who were bringing Proviſions to this City, to deliver Letters in their Name, whereby they ſummoned the Inhabitants to pay them a Contribution of 26000 Crowns, and threatened, in Caſe of a Denial, to plunder and burn all the Farm Houſes and Country Seats in the Neighbourhood: The Marqueſs Grimaldi, inſtead of regarding ſuch

such Menaces, sent in the Night a Detachment of the Garrison to surprize an advanced Post occupied by eighty of the Rebels, most of whom have been killed or taken Prisoners.

We were some Time doubtful whether the Rebels had any Artillery; but now we find it is true that a foreign Vessel did bring them some Cannon; but as they are only Field Pieces, it is not to be expected that they can do much Execution against fortified Towns: Besides, we are informed that they want both Gunners and Carriages for their Artillery; so that we presume they will hardly venture to undertake the Siege of this City, though they gave out that it was the Design of their late Movements.

Madrid, July 9. A grand Council has been held at Buen-Retiro, on the Subject of some important Dispatches received from Vienna, relative to the State of Affairs at the Courts of Naples and Turin. The Imperial and British Ministers have also had Conferences with M. Wall on this Occasion.

Copenhagen, July 23. The Court is remarkably intent on whatever respects the Commerce of the Nation. It is reported that a Treaty is concluded with a certain Power, which in its Consequences will repair the Loss suffered by the Interruption of our Commerce with Spain.

Turin, July 18. There has lately been handed about a Plan of a Treaty of Confederacy between several Princes in Italy for the Preservation of Peace in this Part of Europe; and some People go so far as to insinuate, that this Plan has already been the Foundation of some Proposals which have been made. We cannot absolutely say that it is authentick, though, from several Parts of it, it might be look'd upon to be so, the Plan for uniting the different Princes being calculated very wisely for preventing fresh Disturbances, and the bad Consequences which might arise from clashing Interests. The Treaty lately concluded between the Imperial Court and the Duke of Modena seems to have given the Hint for the Foundation of this Plan.

Naples, July 9. Tho' some Progress has been made in the Negociation of the Treaty of Peace between this Court and that of Great Britain, there are some Difficulties left still with regard to the collecting of the Duties which are to be paid upon English Commodities in the several Ports of this Kingdom, but we hope they will soon be removed. The King's Forces become daily more considerable by the Corps which several Noblemen raise at their own Expence. His Majesty has conferred the Rank of Colonel upon the Duke de Lanti, who is raising a Regiment, which is to be called by his own Name.

Gibraltar, June 28. *We are informed by our last Advices from Tunis, that the Corsairs of that Place have proved very unsuccessful in their late Cruizes against the Ships of the Christian Powers, having taken but very few Prizes, and consequently made but few Slaves.*

Naples, July 5. *Last Wednesday Morning the Queen was safely deliver'd of a Princess, which happy Event was soon after made known to the People, by a triple Discharge of the Cannon of the Castle of St. Elmo.*

Turin, July 15. *We are informed by our last Advices from Sardinia, that a Tunesian Corsair, of* 18 *Guns, was drove on the Rocks near Cagliari, the Beginning of this Month, and was dashed to Pieces, only five or six of the Crew having saved themselves in their Chaloupe.*

Hambourg, July 24. *M. Hisi, an eminent Banker in this City, has received Bills of Exchange from Paris for a considerable Sum, which he has Orders to remit to Copenhagen, as Part of the Subsidy paid by his most Christian Majesty to the Crown of Denmark, by Virtue of a Treaty subsisting between the two Courts.*

LONDON.

August 1. *Letters from Sicily advise that the Eruptions of Mount Ætna have been so terrible and so frequent in the Month of June last, that all the Fields, Gardens, &c. for upwards of three Leagues, around that Mountain, have been destroyed; and that they have likewise had divers Shocks of Earthquakes in that Island, some of which were so violent, that two Villages have been swallowed up.*

August 2. *Letters from Modena abound with Encomiums on the* [illegible] *vernment. Trade lifts* [illegible] *be setting up of divers* [illegible] *rincipal Towns of that* [illegible] *pot, are compleat. And his Serene Highness has filled up all the vacant Posts in his Army. They also talk of some new Arrangements in the Ministry, for the better Management of Foreign and Domestick Affairs.*

They write from Lisbon, that the two Ships which were lately sent with warlike Stores to Mazagam, are arrived in the Tagus, and have brought Advice of a new Engagement between the Garrison of that Place and the Moors, in which two of the principal Commanders of the latter were killed on the Spot, and seven other Officers made Prisoners.

They write from Brussels, that they are in greater Hopes than ever of seeing the perplexed Affairs of the Tariff and Barrier settled to the Satisfaction of all the Parties concerned, the Dispatches on those Subjects, by the last Curriers from Vienna, being extremely favourable.

August 3. *The Accounts from Warsaw are full of Commendations of his Polish Majesty, for his Endeavours in reconciling the Differences that have arisen between several of the principal Families in Poland.---Whilst these Feuds continue no Business can be done in the Diet, there being a perpetual Opposition from that Party which thinks itself least favoured by the Crown. To such a Height of Unhappiness is that Kingdom arrived, through the unbounded Liberty of the Nobles, who look upon the lower Sort of People as Slaves, having the Power of Life and Death over their Tenants.*

Our Correspondents at Vienna acquaint us, that the celestial and terrestrial Globes lately finished for their Imperial Majesties, by J. G. Nestfel, have been put up in the Library of the Court; and being universally admired, he has been honoured with the Title of Imperial Mechanist, a large Gold Medal which he is to wear upon his Breast, and a yearly Pension.

The Master of a Vessel arrived at Cork from St. Lucar, reports that the Plague Rages on the Coast of Barbary, from whence the Inhabitants are daily retiring to escape its dreadful Effects.

The Josephin, Teague, from Newfoundland, for Naples, was well off the Rock of Lisbon the 10th of July.

August 6. *They write from Florence, that they cannot help being uneasy at the Situation of Affairs in Italy, especially as the King of the Two Sicilies has actually above fifty Thousand Men on Foot, and it is yet uncertain how so great a Force may be employed; for they seem to lay no Stress on the Court of Madrid's affecting to be dissatisfied with his Sicilian Majesty's refusing to acquiesce in the Arrangements of the Treaty of Aix-la-Chapelle, with Respect to the Disposal of Naples and Sicily, and the Dutchies of Parma, Placentia and Guastalla, after the Decease of his present Catholick Majesty.*

It is insinuated in Advices from Paris, that the Ministry intend to pursue their Schemes in North America, and at the same Time receive very civilly whatever Representations may be made on this Head by the British Court: That if they succeed, they will make it appear France has a Right to build Forts on the River Ohio, and along the Back of all our Northern Colonies: And if they miscarry, they need but own they were under a Mistake with Regard to the Boundaries between the two Crowns in that Part of the World; and so all Things will be made easy, as this are not a very proper Juncture for carrying Matters to Extremities.

August 7. *It is certain the Want of heavy Artillery was the only Reason the Malecontents made no Attempts upon Inspruk, when it was in a Manner blockaded by them, during which the Inhabitants of the Suburbs suffered greatly.*

August 10. *Some private Letters from Turin intimate, that Things is at a great Crisis in Italy; that the King of the Two Sicilies is not only recruiting but augmenting his Forces, without any visible Cause; that it is strongly reported the Republick of Genoa have met with a Purchaser for Corsica; and that the Court of Rome has, at the Request of his Sardinian Majesty, caused a Pilgrim to be seized and delivered up, who is charged with some Practices of a very extraordinary Nature.*

August 14. *His Majesty has been pleased to appoint John Reynolds, Esq; to be Captain General and Governor in Chief of His Majesty's Colony of Georgia, in America.*

The King has been pleased to appoint Charles Lawrence, Esq; to be Lieutenant-Governor of his Majesty's Province of Nova-Scotia, in America.

We have Advice from Madrid, that his Catholick Majesty has issued an Ordonnance, prohibiting all the Religious Houses in the Kingdom from receiving any new Nuns or Monks, for the Space of ten Years.

August 15. *The Account brought by Capt. Harman, arrived in the River from Leghorn, is as follows. After being twelve Days from the Streights Mouth (but don't mention the Day) in Lat.* 45, *he spoke with a Sloop bound from Malaga to Southampton, who had been Twenty-four Days from Gibralter, the Master of which told him that Commodore Edgecumbe had ordered him, on his leaving that Place, to acquaint all Masters of English Ships he should meet with, that the Emperor of Morocco had declared War against Great Britain. Capt. Harman farther says, that he ask'd the Name of the Sloop and Master, but it blowing very hard, and going from them very fast, he could not understand what they said.*

Extract of a Letter from Paris, dated August 3.

"*It is said that the Cause of the Arrest of the Marquis de la Ensenada, first Minister of State in Spain, was owing to his endeavouring to perswade his Catholick Majesty to abdicate the Crown, in order to make his Brother Don Carlos, King of Spain, &c.*

You may depend upon it our Parliament will return to their Functions on the first of next Month."

BOSTON, September 23.

By a Vessel from Fort Halifax, at Teconnet Falls, on Kennebeck River, we have Advice, that by this Time it is expected the Works at that Fortress and Fort Western at Cushnoc, are finish'd, as also the Road of Communication between those two Forts; and that the Remainder of the Soldiers raised for the late Expedition upon Kennebeck River (except such a Number as shall be left in Garrison for the Defence of the Forts there) are dismissed, together with the Workmen employ'd in building them; and that they, together with General Winslow, and the other Officers, will soon return to Boston.

A few Days ago came to Town by Land 5 Frenchmen, who on Friday last were examin'd before his Excellency and the Council, and we hear they gave the following Account of themselves, viz. That they belong'd to the French Army near the River Ohio, which being in want of Provisions, and their Service very hard, they, with 25 others, deserted to Col. Washington, who sent them away before the fatal Action on the third of July.---That the French Soldiers in general were so dissatisfied with their Service, that if the English had a Force in those Parts sufficient to protect them, they would every Man desert except the Officers.---That the other 25 had disposed of themselves, some in one Place, and some in another, among the English; but that those five being desirous to get to England, came hither for that Purpose, with Letters of Credence from Col. Washington, &c.

NEW-YORK, September 30.

We have Advice from Albany, That about ten Days ago, a French Indian arrived there from Canada, and brought with him a young Woman, who had been taken and carried off from the back Parts of Virginia about 12 *Years since.*

Last Night a Schooner arrived here from Cape Sable, in whom is come Passenger, Capt. Rudyard, late of a Sloop of this Port, who informs us, That on Wednesday, the 5th Inst. in a Violent Gale at South, he was drove ashore on Cape Negro, where his Vessel soon bilged, and went to Pieces, but he happily sav'd all his People, and some of his Cargo. Whilst he remained at Cape Sable, a fishing Schooner came in there, the Master whereof acquainted him, that in the same Gale in which he was cast away, he saw a white bottomed Schooner with Topsail Yards across, sink in his Sight, and every Soul on Board perish, without being able to give them the least Assistance, and that he afterwards came up with another Schooner overset, but could discover no People, and imagined they must have perished also.

On Wednesday last was held at Newark, the anniversary Commencement of the College of New-Jersey. The Ceremony concluded with a handsome Oration, deliver'd by Mr. President Burr, to commemorate the Benefactors of the College for the past Year both in Europe and America.

We hear the Rev. Mr. Whitefield was complimented with a Diploma, constituting him Master of Arts, at the above Commencement.

PHILADELPHIA, October 3.

This Day the Honourable ROBERT HUNTER MORRIS, Esq; attended by many of the principal Gentlemen of this City, arrived here; when his Commission, appointing him Governor of this Province, was published at the Court-House; after which the Guns of His Majesty's Ship Baltimore, and of the Association Battery, were fir'd off.

Extract of a Letter from a Gentleman in Shippensburgh, dated September [illegible] 1754.

"On Friday Night last, about [illegible] o'clock, there arriv'd at Auchwick, while I was there, one of our Indians, who had travell'd Night and Day from the French Fort to give us Intelligence, that there were 300 French Indians arriv'd there; and that they were immediately to set out from thence in order to make a Diversion on our Back Inhabitants."

Capt. Bachop, in five Weeks from Londonderry, on the 16th ult. in Lat. 37, 40, N. Long. 59, 20 W. spoke with the Ship St. Elizabeth, Captain John Crawford from Jamaica for London, who had been out eight Weeks and few Days, all well on board.

SCHEME

Of a LOTTERY, for raising 3000 Pieces of Eight, for the Use of the ACADEMY at Philadelphia.

THE Purchase of Ground and Buildings for the Academy, the Alterations and Improvements that were necessary to accommodate the Scholars, and the furnishing of the several Schools, having, all together, prov'd an Expence far beyond their first Expectation, the Trustees, desirous as soon as possible to compleat their Plan, for the Good of the Publick and of Posterity, find themselves under a Necessity of obtaining some Assistance by way of Lottery: And as several Lotteries have, since the Founding of this Academy by Subscription, been carried on and encouraged here, for the Benefit of Schools and Colleges in the neighbouring Provinces, 'tis hoped it will not be thought less reasonable that we should at length have one for the Benefit of our own. Those who in this way have lately contributed liberally to Matters of mere *external Ornament* to the City, will doubtless more chearfully encourage the Academy; an Undertaking which aims at *adorning* the Minds of our Youth with every Excellence, and rendering them really useful and serviceable Members of Society.

By the HONOURABLE

ROBERT HUNTER MORRIS, Esq; Lieutenant-Governor and Commander in Chief of the Province of *Pennsylvania*, and Counties of *New-Castle, Kent*, and *Sussex*, upon *Delaware*,

A PROCLAMATION.

FORASMUCH as the Honourable THOMAS PENN, and RICHARD PENN, Esquires, true and absolute Proprietaries and Governors in Chief of the Province of *Pennsylvania*, and Counties of *New-Castle, Kent*, and *Sussex*, upon *Delaware*, have been pleased by their Commission, under their Hands and Seals, bearing Date the fourteenth Day of *May* last, to constitute and appoint me to be their Lieutenant-Governor of the said Province, and Counties, with all necessary Powers and Authority for the Well-governing of the same; which said Appointment the King's most excellent Majesty, in a Council held at *Kensington* the twenty-first Day of *June* last past, was graciously pleased to allow and approve of: Therefore, in Pursuance of the said Trust in me reposed, having a special Regard to the Safety of the State and Government of the said Province and Counties, and to prevent Failures in the Administration of Justice therein, I have, by and with the Advice and Consent of the Council of the said Province and Counties, thought fit to ordain, and do hereby ordain and declare, That all Orders and Commissions whatsoever, relating to the Government of the said Province, and Counties, heretofore lawfully and rightfully issued, which were in Force on the third Day of this instant *October*, shall be, continue, and remain in full Force, Power and Virtue, according to their respective Tenors, until my further Pleasure shall be known therein; and that all Persons whatsoever, who on the third Day of this instant *October*, held or enjoyed any Office of Trust or Profit in this Government by Virtue of any such Commission as aforesaid, shall continue to hold and enjoy the same until they be determined by me as aforesaid, or by other sufficient Authority.

And I do farther hereby command and require all Magistrates, Officers and Commissioners whatsoever, in whom any publick Trust is reposed in this Government, that they diligently proceed in the Performance and Discharge of their respective Duties therein, for the Safety, Peace and Well-being of the same.

GIVEN under my Hand, and the Great Seal of the said Province, at *Philadelphia*, the fourth Day of *October*, in the twenty-eighth Year of the Reign of our Sovereign Lord *GEORGE* the Second, by the Grace of God King of *Great-Britain, France* and *Ireland*, Defender of the Faith, &c. and in the Year of our Lord, One Thousand Seven Hundred and Fifty-four.

ROBERT HUNTER MORRIS.

By his Honour's Command,
RICHARD PETERS, *Secretary.*

GOD save the KING.

PERTH-AMBOY, October 5, 1754.

Thursday last his Excellency our Governor was pleased to make the following SPEECH *to the Council and General Assembly of this Province, now sitting here,* viz.

Gentlemen of the Council, and of the General Assembly,

THE *bold and unwarrantable Encroachments of the French (with their Indians) upon his Majesty's Lands on the River Obio, with their invading the King's Territories (even from South-Carolina to Nova-Scotia) together with their barbarous Depredations and Murders of his Majesty's Subjects, has been the chief Reason of my calling you together at this Time, when I hope you will see the absolute Necessity of the strictest Union among all his Majesty's Provinces and Colonies, not only for the common Defence, but also for the better Safety and Welfare of each particular Province; and that you will now join with the neighbouring Governments, and chearfully exert yourselves in raising Men and Money for repelling the French, and for driving them from the continual Inroads they are making upon the King's Lands and People: And these Things you can be no Strangers to, while we have repeated undoubted Accounts, of their constantly alarming the Frontiers of his Majesty's Provinces, from their most southerly to their most northerly Bounds. I therefore hope, and have no Doubt, but that these Things will fire you (and every true English Heart) with a becoming Indignation against the very extraordinary Proceedings of the French, contrary to the Law of Nations, and in open Violation of the Treaties of Peace between the Crown of Great-Britain, and the French King, and to which the French ought to have a just and sacred Regard.*

The present melancholy Situation of many of our Neighbours, require your speedy and humane Regard towards them; nor must you, Gentlemen, imagine yourselves exempted from those Cruelties and Barbarities. No! if there be not an effectual Stop put to them, you may soon expect the Enemy on your own Borders: I have therefore lately sent (by Express) my Orders to the Colonels of the several Regiments in the Province to muster them, and to make a thorough Inspection, that Officers and Men be furnished with Arms and Ammunition, as the Law directs, and so may be ready for Service, upon any sudden Occasion. And here I think proper to say, That it seems necessary to revive the Militia Act, and to amend and strengthen it, so as to answer the End and Purpose for which it was made, and this to be done more especially at this critical Juncture.

I have now also ordered to be laid before you a Plan for the Union of the British Colonies on the Continent of America, as agreed on in the Congress of the Commissioners, from a good Number of the King's Provinces, lately held in the City of Albany; together with the particular Account of the several Conferences held with the Six Nations, and other Indians, at the said Congress. These Things you will well deliberate upon, and do therein as you shall judge reasonable and necessary.

Gentlemen of the General Assembly,

What I have now mentioned, must, of Course, be attended with considerable Charge; and as the Provision for it most properly originates with you, I hope, not only for the King's Honour and Interest, but for the Safety and Welfare of the People you represent, you will give the needful Dispatch to every Thing to be done on your Part; and a ready Instance of your Duty in this Respect, will recommend you to the Royal Grace and Favour of the best of Kings.

Gentlemen of the Council, and of the General Assembly,

I am sensible it will soon be a very busy Time in your private Affairs; when you have therefore gone through what I have laid now before you, I shall be willing to give you such reasonable Recess as you may desire.

Perth-Amboy, October 3, 1754. J. BELCHER.

The same Day there was a general Review of all the Train Bands of the County of Middlesex, when a Person, for his own Curiosity, having counted them, found 'em upwards of 900 Men, exclusive of Officers. They all march'd thro' the Town in regular Order before his Excellency.

By Captain Miller, arrived at New-York in forty Days from London, we have the following Advices, viz.

Algiers, July 12. *One of our Vessels having lately brought in a French Ship, under Pretence that it was not furnished with legal Passports, the Dey immediately restored it on the first Request made by Mr. Germain, charged here with the Affairs of France, during the Absence of their Consul, Monsr. le Maire.*

Naples, July 23. *The considerable Augmentation which is continued to be made in the Troops of this Kingdom, gives Room for a Multitude of Conjectures. If any Credit, however, is to be given to the Notions of certain Politicians, this great Armament is made with a View to support the Right of the Duke of Calabria to the Crown of the Two Sicilies, in case the King, by the Death of his Catholick Majesty, should mount the Throne of Spain.*

Paris, August 9. *Last Sunday M. Maupeou, Premier President of the Parliament, had the Honour to wait upon their Majesties at Compiegne, by whom he was received very graciously, and the King discoursed with him some Time. The Affair of the Parliament will render the Name of that Magistrate celebrated in the Annals of this Kingdom, by the singular Wisdom with which he has conducted himself in having an equal Attention to support the Rights of the Parliament, and in shewing due Respect and Obedience to Royal Majesty.*

Marseilles, July 29. *Capt. Eymin, from the Levant, has sent Word to his Owners, that having put into PortoFarina, he was informed that a Sallee Man, which cruizes from Cape Bon to the Isle of Galeta, under Algerine Colours, had taken two French Vessels. This News has occasioned a great Consternation among our Merchants, and made every one backward to insure.*

Paris, August 9. *The last Time M. de Maupeou, First President of the Parliament, was at Compeigne, the King repeated to him what he had said in the former Conferences, concerning the Resolutions he had taken to settle all Things in such a Manner as might best maintain Peace in the Church, by preventing whatever might have a Tendency to Schism; and then his Majesty added, "I shall be very glad to see my Parliament meet again in the Capital. I hope that from henceforth I shall always have Reason to be satisfied with their Conduct, and to applaud the Zeal which they will continue to manifest for my Service; and that the Manner in which they shall discharge their Duty to me will always be accompanied with the Submission they owe to my Orders." When M. de Maupeou, was introduced to the Queen, her Majesty said to him, "I am charmed to see the King resume his former Sentiments, with respect to the Parliament of Paris. I have been greatly concerned at the Alteration that happened therein; and it is with Pleasure, that I assure you of my Esteem for that Body."*

Hague, August 14. *A Letter from Warsaw pretends to tell us, that the Design of the Ottoman Court in advancing a Body of 30 or 40,000 Men to the Frontiers of Poland, was to prevent any foreign Power from intermeddling in the domestick Affairs of that Kingdom.*

August 16. *We are assured that the Powers concerned in maintaining the Treaty of Aix-la-Chapelle, are employed in concerting Measures to defeat any Attempt to set aside the Regulations of that Treaty, with regard to the Reversion of the Neapolitan Crown, and the States of the Infant Duke of Parma.*

It is reported, that the Courier, who has just gone thro' this City, in his Way to London from Manheim, carries the Elector Palatine's Acceptance of the Proposals that were made to him, touching the Part which his Britannick Majesty is disposed to take in the Treaty between his Electoral Highness and the Court of Vienna.

Dublin, Aug. 17. *As the Empress of Germany is now giving all imaginable Encouragement to her Subjects, and particularly to those of Flanders, for making Canals and Rivers navigable, might not Ireland be made one of the most flourishing Countries in herself, by making the fine River Shonnon navigable, which runs through eleven different Counties, and which may, in Time, be all furnished with Corn of their own Growth, and serve other Parts of the Kingdom with Grain and Flour? Besides, we are credibly informed, that Marl is to be found in all or most Parts of the Bottom of this great River, which might make the most barren Lands produce the best of Corn. If the Navigation of this grand River was once effected, it would be an easy Work to join this with other Rivers; by which, not only the neighbouring Inhabitants of that Country would gain great Benefit, but also the City of Dublin, and the Nation in general.*

Edinburgh August 15. *They write from Aberdeen, that they began their Barley Harvest there on Saturday last, and that they have the agreeable Prospect of a very plentiful Crop.*

LONDON.

August 17. It is said the regular Troops in Nova-Scotia will, between this and Christmas, be augmented to 5000.

A Man of War is fitting out, to take on board John Reynolds, Esq; lately appointed Governor of the Colony of Georgia.

Information having been received, that a Vessel or Vessels, having

ing on board some Persons concerned in the late Rebellion, are hovering about the Coast of Scotland, a private Vessel, with proper Instructions, has been dispached for seizing the Vessel or Vessels, and the Persons before they are landed, if possible.

By a private Letter from Paris we are informed, that last Week his Excellency, the Spanish Embassador at Paris, was arrested, sent to the Castle of Vincennes, and all his Papers sealed up, at the Request of his Catholick Majesty.

August 20. *On Friday Mr. Maddox, one of his Majesty's Messengers, set out with Dispatches from the Secretary of State's Office, for the Earl of Albemarle at Paris.*

Last Friday the Sarah, Stap, from Rotterdam, for New-York, arrived at Spithead, with 250 Palatine Passengers on board.

Our Letters from Berlin acquaint us, that the King intends shortly to make a Tour to Silesia, in order to examine the Posture of his Dominions, and of his Troops.

Our Correspondent at Paris acquaints us, that the late Intelligence from Spain seems to occupy the Court extremely, and though nothing transpires with Certainty, yet those who are thought to be best informed give out, that the Measures taken for some Time past, and which are still taking, in a certain Court in Italy, are imputed to some late Ministers.

August 22. *They write from Barcelona, that the Coasts of Spain are quite cleared of Barbary Corsairs, by the Men of War, Frigates and Xebeques, that have been sent out to cruize upon them, and by the Preparations that are still carried on in the Ports of that Monarchy, which make those Pyrates apprehend that some important Enterprize is intended against them. They add, that the Corsairs are now gone to try what they can do on the Coasts of Portugal: But, according to Advices from Lisbon, they are likely to speed no better there than they have done on the Spanish Coasts, as the Portugueze have taken Measures to put a Stop to their Depredations.*

We have Advice from America, that a Ship of 900 Tons was arrived at Louisburgh from France, with Cannon, &c. that a Mine was completed between the West and South Gate, and that strong Fortifications were erected on the Light-house Point.

The Senate of a great trading City in Germany, having lately made many sumptuary Laws, and expressed a strong Desire to repress Luxury, among other Methods the Magistrates sent for the Preachers, and directed them to second their good Design from the Pulpit; to which the eldest of them, in the Name of his Brethren, answered, "We shall do our "Duties chearfully; but the most efficacious of all Sermons will be your "own Examples."

Extract of a Letter from the Hague, dated August 8.

"*You was told in my last how the French behaved to the English in North America, and was promised to be informed how the former carried themselves towards the latter in the East Indies: Their Conduct in that Part of the World, as well as in the other, has very much contributed to make the Sarcasms which are daily published in England against the French highly relished there. It must be understood, that there is a great Difference between the Contentions of the two Nations in the West-Indies, and their Quarrels in the East. Both the French and English Colonies in North-America are the Patrimony of the two Crowns respectively. Now the Establishments in the East-Indies belong to the two Companies, and are respectively under the Protection of the two Crowns: So that the Differences which happen there only concern the two Companies, who act as they themselves think proper, without consulting their Protectors in their Enterprizes. And it is for this Reason that an Accommodation of the Quarrels between the two Companies is negociated by their own Deputies, aided and supported by the two Powers, under the Protection of whom they were established, and under whom they carry on their Commerce. The two Companies were likewise assisted by these Powers in the Succours they severally sent the Beginning of this Year to the Coast of Coromandel, where the Companies do not act as Enemies, but only as the Allies of the Nations of that Country, with whom they respectively trade. Some People took great Pains, when Mr. Duvelaer went back from France to London, to make the Publick believe that the Conferences held there, between the Commissaries of the two Companies, were intirely broken off; but the Return of that Gentleman to London was a Kind of Contradiction of the above Reports, spread abroad with malevolent Intention, for, as he has carried his Lady with him, 'tis naturally expected, we say, that he should remain there some considerable Time; others pretend, that his Negociation draws towards a Conclusion, and that he brought his Wife with him in order to take Advantage of the little Time he has to stay there, that she might not miss the Opportunity of seeing the English Court, and the City of London.*"

August 24. *The Savage, Fortune, and Gibraltar Men of War, from the Eastward, arrived at Plymouth the 19th, bound for America.*

The Halifax is arrived at Plymouth, from Rotterdam, with Palatines for the West-Indies.

BOSTON, October 7.

At the Superior Court of Judicature, Court of Assize, &c. held at Springfield, on the 24th of September past, one Michael Fowler was tried upon an Indictment for Burglary, and convicted, and received Sentence of Death accordingly.

At the same Court, Joseph Severance, jun. and Eunice Clesson, both of Deerfield, were tried for and convicted of the Crime of Incest, for which the said Severance received Sentence according to Law, viz. to sit on the Gallows with a Rope about his Neck for the Space of one Hour, to be whip'd in his Way from thence to the Goal 30 Stripes, and to wear a Capital I of two Inches long, and proportionable Bigness, on his upper Garment for ever. Sentence against the Woman, for special Reasons, we hear, is respited for the present.

Also at the same Court, one Jedediah Newton was convicted of counterfeiting the current Coin of the Province, and of uttering several of the Pieces by him counterfeited, for which he was sentenced to be set in the Pillory for the Space of one Hour, to be whip'd 20 Stripes, and to pay a Fine of Twenty Pounds, and Costs.

NEW-YORK, October 14.

The General Assembly of this Province are to meet here To-morrow, according to Adjournment.

We hear the General Assembly of New-Jersey, have resolved on assisting the Virginians in the Ohio Affair.

Capt. Bennet from Halifax in 14 Days, informs us, That Provisions in that Place, are in general very scarce, particularly Flour, of which hardly a Barrel is in Store for Sale, whilst the common Conjecture here is, That the Stores at Louisbourg, in Cape-Breton, must be overstock'd with that Commodity; and the Reason, they say, they give for such Conjecture, is, the Number of small Vessels they have noticed clear'd from the several Western Ports for a few Weeks past, and others they have known, that were bound to the Eastward, laden with the Staff of Life; and the more so, as they did not hear of their Arrival elsewhere.

Capt. Hovey, mentioned a few Weeks ago to be Prisoner in Halifax, for firing on the Barge of one of his Majesty's Sloops of War, near Annapolis-Royal, broke Jail, and made his Escape, a Day or two before Capt. Bennet sail'd. His Crew were still in Confinement.

Capt. Paschall, in a Ship from Virginia bound to Guernsey, is desirous to be noticed in the Prints as being well 16 Days ago.

Saturday last his Majesty's Ship Shoreham, the Hon. Julian Legg, Esq; Commander, sailed from Sandy-Hook, bound for Virginia, with £. 5000 in Cash on Board, granted by this Province, in order to aid the Virginians, in repelling the French and their Indians, from the Frontiers of that Province: We hear the Shoreham is to proceed from thence to her Station at South-Carolina. At the same Time, one Ship, two Snows, three Brigs, and two Sloops, sailed from Sandy-Hook, for different Ports, being detained there some Days by contrary Winds.

PHILADELPHIA, October 17.

Monday last the General Assembly of this Province met here, when ISAAC NORRIS, Esq; was unanimously chosen Speaker for the ensuing Year.

We have Advice, that the *Twightwees* lately sent some of their Headmen to the Lower *Shawana* Town, on the River *Ohio*, with the following Message, *viz.*

Brethren, the Shawanese,

"You know that the *French* have invaded our Country on all Sides;---Why do you sit so still?---Will you be Slaves to the *French*, and suffer them to be Masters of all the Land, and all the Game?---Rise up, take the Hatchet, and follow our Example.---We kill'd, not long ago, Fifty *Frenchmen*, all Warriors, in one Day.---Five other Nations have join'd us; and if you, and your Grandfathers, the *Delawares*, will but stir, the *French* will soon be forced to fly."

To which the Shawanese *answer'd.*

Brethren, the Twightwees,

"We are surpriz'd at your Request. The *Six United Nations* have desir'd us to sit still, and not mind the *French*; and that we must keep our Ears and Eyes towards the *Six United Nations*; and so do our Grandfathers the *Delawares*. We desire you would spare us, and leave our Town before the *French* hear of you, and come and kill you here, and plunge us into the War, before the *Six United Nations* begin it." Upon which, it is said, the *Twightwees* accordingly left the *Shawana* Town much disgusted.

We have Intelligence from the back Parts, that a Party of French Indians have been lately down at Wills's Creek, and in the Night Time fired at one of the Sentries placed round the English Camp at that Place.

We hear that Tanachrisson, otherwise called the Half King, one of the principal Chiefs of the Indian Nations settled on the Ohio, died at Harris's Ferry, on Sasquehanna, the fourth Instant, after having been some Time indisposed.

From Cumberland County there is Advice, that some Time last Month an Indian, named Israel, one of the Six Nations, kill'd an Indian Trader at the House of one Anthony Thomson, near the Foot of the Tuscarora Valley, and then made his Escape.

By a Letter from London (Via New-York) dated the 24th of August, there is Reason to believe that Capt. Budden left the Downs that Day for this Place.

Yesterday came Advice, that the Schooner Beaufort, Captain Ferguson, bound to St. Christophers from this Port, was drove ashore at Cape Henlopen, on Monday Night last, in a violent Gale of Wind.

Since our last Captain Jones arrived at Wilmington; and Capt. Abercrombie in this Harbour; and the Henrietta, Capt. John Ross, is now in the River, all from Holland with Palatines. Captain Leslie sailed from Cowes before Capt. Abercrombie; and Capt. Charles Ross was to sail soon after him, both for this Port, and likewise from Holland with Palatines.

York, October 2. 1754.

SOME time last month a certain man, who calls himself John Jones, came to a tavern in Chanceford township, York county, and brought with him two mares, the one a bay mare, has some saddle spots, and is branded on the near shoulder (T); the other a small trotting grey mare; and after some questions were ask'd by some of the neighbours, he thought proper to take to the woods without the mares, and left also a saddle, and a pair of saddle bags, which gives great reason to suspect the mares are stolen. The owner is desir'd to come to Christian Croll's, in York-town, and prove his property, before the thirtieth of this instant October, otherwise the mares will be sold on that day for the charges.

TO be sold, by publick vendue, on the sixth day of November next, at three a clock in the afternoon, on the premises, A good three story front house, and a small kitchen; the house contains in breadth 15 feet, and 9 inches (including a three feet alley) and in depth 33 feet. From the GENTLEMAN's MAGAZINE.

——*be French, soon after their first Settlement in Canada, Just were terribly harrassed by the Iroquois Indians, and ntinued to be so during a great Number of Years, it ay be agreeable to some of your Readers, and useful others, such especially who have an Interest in Colo- At th es threatned with the like Difficulties, or are concerned Frontier Settlements bordering upon Nations jealous of Independency, or of doubtful Affection to the Planters; to know Precautions the French used against the Incursions of such Enemies, se Cruelty render'd them formidable, and their extreme Agility secure the Pursuits of regular Troops of Infantry. For their Use and ction I have sent you the following Translation from the seventh er of Father Charlevoix's Historical Journal of a Voyage in North- erica; with some additional Observations, which I beg you to insert.*

All this Country, says Charlevoix, speaking of the French Settle- ts on the South East Side of the River St. Lawrence, was for a long e the Theatre of many bloody Scenes, being, during the Iroquois War, most exposed. They came down into the Country by a River that falls the St. Lawrence, a little above the Lake of St. Peter, and from e it took their Name; but has since been called the Richlieu, and at ent the Sorel. The Isles of Richlieu, which these Indians fell into in their Descent from this River, served them both for Places of eat and Ambush. But when this Passage was cut off by building Fort at the Mouth of the Sorel, they took another Rout thro' the Coun- above and below it, and particularly fell upon the District of St. rais, where they had the same Opportunities to plunder, and exercised lities too shocking to be described. From hence they would spread selves through the whole Colony: So that to be safe from their Fury, became necessary to build a Sort of Fort in every Parish, as a Refuge the Inhabitants at the first Alarm: In each of these were one or two tinels maintain'd Night and Day; they were provided with some ld Pieces, or at least Pateraroes, to keep off the Enemy, and to ve the Inhabitants Warning to be on their Guard, and to serve as nals for Succour. These Forts were no more than large Enclosures de with Pallisadoes bastioned, or else strengthened with some Re- bats. The Parish Church and the Parsonage House were built with Enclosure; which had besides Room sufficient, in Case of Need, for Reception of the Women, Children, and Cattle of the Place. This was ficient to protect them from Insult: And I do not know that the Iro- ever made themselves Masters of one of these Forts. They rarely ld long enough to block them up; and more rarely did they attempt to them by Assault; this was too full of Danger for Savages, who not defensive Arms, and who are not fond of Victory at the Expence their own Blood: The other was not at all agreeable to their Method making War. There are however two Attacks made by the Iroquois the Fort of Vercheres, contrary to their usual Manner, in the An- ls of Canada, to perpetuate the Memory of the Valour and Intrepidity two Amazons."

The Author proceeds to relate the Particulars of those two memorable ctions; which are no otherwise to our Purpose, than as they demon- te the Serviceableness of such Forts: Which may put a Stop to the rsions of an Enemy that hopes for Success only by Surprize, though ended but by a Woman of some Presence of Mind, and personal Cou- ge; and may give such an Alarm as shall cause a precipitate or very ardous Retreat.

Charlevoix, in other Places of his Work, observes as a Fault in the first ablishment both of the French and English Colonies, that they neglected form themselves into Towns, or compact Villages, for their easier and ter Defence, by which Neglect they have both received considerable ches from Enemies comparatively despicable. The English in par- ular, make very little Provision against the Surprizes or sudden Efforts their Neighbours; and this, with their Inaptitude for War, con- cted from their Application to Commerce and Agriculture, has brought them into Contempt with the Savages, who have remarked, that a Hand- ful of French keep populous and flourishing Colonies at a Bay for a long time together.

And indeed, if we cannot learn the Art of gaining the Affections of our Indian Neighbours, which the French boast of as a Secret possessed only by themselves, it is incumbent on us to supply this Defect by our Care to put it out of their Power to hurt us; not omitting, in the mean time, to learn, as we may from Charlevoix, by what Means the French have been able to attach to themselves so strongly some of the Indian Na- tions, the Abenakie's in particular, our Neighbours on the Frontiers of New-England and Nova-Scotia, whose Bravery and Fidelity to the French, Charlevoix every where celebrates; and whether the Politician or Missionary contributed most to bring about this Effect.

And here doubtless the first Care should be to seize, fortify, and gar- rison a few well chosen Posts at the Head of our several Frontier Colonies; after this, such Enclosures as are above described, and a few light Horse of the Hussar Kind, might be posted in some of these Inland Forts; who might pursue and harrass the Indians in their Retreat, who have nothing to fear from Foot of less Agility than themselves in a March.

Particularly a good Post is wanting on that Part of the Sorel, which runs from the Frontiers of New York to the Lake Champlain; from whence the same River directs its Course North West till it falls into the St. Lawrence between Montreal and Quebeck. This would not only cover New-York on the West, and New England in some Measure, but would open a Passage by Water into the Heart of the French Settlements on the Banks of St. Lawrence, and might be of prodigious Use if an Attempt on French Canada in any future War should be made.

It is certain the French esteem the Villages of Iroquois and Abenakie Christians their best Defence against Attempts which the English of New- York and New-England may make on the Side of their fine Settlement at Montreal; and it is highly expedient for us powerfully to protect and support, and diligently to prosecute the Mission already begun at Albany on the Frontiers of New-York, and to establish the like at Fort Augusta in Georgia, and at Chinecto or Minas in Nova-Scotia: And I think the Statesman need not disdain, I am sure he will not repent of the Eccle- siastick's Assistance in this Point.

The Method above described is particularly applicable to Nova-Scotia: The Nature and Form of which Country require only a few well for- tify'd Posts on the West, North, and East Sides, of Strength sufficient to be maintained against an Enemy able and expert in forming Sieges. The Heart of the Peninsula after this might be settled with all Safety in the Method above mentioned; and the South would settle itself fast enough.

P. S. In a former Letter which you favoured with a Place in your Magazine, I took Notice, in order to introduce the Planting of Log- wood in Georgia, the Caroline, and Bahama Islands, &c. that a great Variety of the most useful Productions of Nature, both Animal and Ve- getable, were found in Latitudes more Distant from each other, than are Honduras and North-Carolina, of which I mentioned some Instances: Charlevoix, Vol. IV. furnishes another in the Candle-Berry-Myrtle, which he says, is very common throughout all North-America, from Acadia or Nova-Scotia to Louisiana, i. e. from about North Lat. 45. to North Lat. 30. and perhaps to Cape Florida, which is situated nearly in 25, and upon the whole makes a Difference of 20 Degrees in Latitude; and this is nearly the Difference between Honduras and the Northern Part of North-Carolina; but there is only 14 Degrees Difference between South-Carolina and the Southern Part of Georgia and Campechy, tho' perhaps upon Examination these Trees might be found growing spon- taneously much North of Campechy, a Point well worth Enquiry.

To the Memory of Lieutenant PETER MERCIER, Esq; who fell in the late Battle near Ohio River, in Virginia, July 3, 1754.

TOO fond of what the Martial Harvests yield;
Alas! too forward in the dang'rous Field;
Firm and undaunted resolute and brave;
Careless a Life invaluable to save;
As one secure of Fame, in Battle try'd,
The Glory of Ohio's Sons he dy'd.

Oh! once endow'd with ev'ry pleasing Pow'r,
To chace the sad, and charm the social Hour;
To sweeten Life with mild ingenuous Arts,
And gain Possession of all open Hearts;
How have thy Friends and Comrades Cause to mourn!
How wish'd they for thy peaceable Return,
This Province and thy Houshold to defend,
And happily thy future Years to spend!
I hop'd, the Fates far longer would allow
The Laurel Wreaths to flourish on thy Brow:
I hop'd to greet thee from thy Northern Toils,
Elate with Victory, enrich'd with Spoils:
But now, alas! those pleasing Dreams are fled;
Sweetly thou sleep'st in Glory's dusty Bed,
By all esteem'd, admir'd, extoll'd, approv'd,
In Death lamented, as in Life belov'd:
Georgia loud sounding thy Atchievements tell,
And sad Virginia marks where Mercier fell.

Ah! lost too soon--too early snatch'd away,
To Joys unfading, and immortal Day!
Happy! had thy Duration been prolong'd,
To vindicate the British Int'rest wrong'd;
Since none more ready to defend its Cause,
Or to support Religion and the Laws:
In thee our Royal Sovereign has lost
As brave a Soldier as his Troops could boast.

If at some future Hour of dread Alarm
When Virtue and my Country call to Arms,
For Freedom, struggling Nations to unbind,
Or break those Scepters that would bruise Mankind,
In such a Cause, may such a Death as thine,
With equal Honour merited, be mine.

Charles Town, South-Carolina, August 30, 1754. M. W.

NEW-JERSEY.

To His Excellency JONATHAN BELCHER, Esq; Captain-General, Governor and Commander in Chief, in and over his Majesty's Province of *New-Jersey*, and Territories thereon depending in *America*, Chancellor and Vice Admiral in the same, &c.

The Humble ADDRESS of the Representatives of the said Province, in General Assembly met.

May it please your Excellency,

WE *his Majesty's most dutiful and loyal Subjects, the Representatives of the Colony of* New-Jersey, *in General Assembly met, beg Leave to acquaint your Excellency, that we have taken the Encroachments of the* French (*with their* Indians) *upon his Majesty's Territories, into our most serious Consideration.*

We can truly say, we want not Arguments to convince us of the absolute Necessity of the strictest Union among all his Majesty's Provinces and Colonies, for the Preservation of the Whole; and on our Part have endeavoured to cultivate such an Union, by contributing our Endeavours in the best Manner the Circumstances of this Colony will admit. Your Excellency must be sensible, that the Scarcity of a Currency in this Colony at this Time, makes it very difficult for the Inhabitants to exert themselves as fully as the Exigency of the Times seems to require: And therefore, we cannot doubt, but the Measures we have fallen upon, not only to give a handsome Sum to the King's Use at present, but to provide a Fund to do it hereafter, in Case of a like Necessity, will prove agreeable to your Excellency, and all concerned.

We have duly considered the Militia Act now in Force, and are of Opinion it will sufficiently answer the Purposes intended by it.

We have also taken into Consideration, the Plan for the Union of the British *Colonies on the Continent of* America, *as agreed on in the late Congress at* Albany; *and are sorry to say, that we find Things in it, which, if carried into Practice, would affect our Constitution in its very Vitals; and for that Reason we hope and believe they will never be countenanced by a* British *Legislature.*

We thank your Excellency for the Care and Concern you have shewn in the several Matters recommended to us; and we hope the Unanimity and Dispatch with which they have severally been treated in this House, will recommend our Determinations, and be agreeable to your Excellency.

By Order of the General Assembly
ROBERT LAWRENCE, Speaker.

Tunis, July 17. Last Month we sent to Sea four Galleys carrying 12 Guns, 52 Swivel Guns, and 670 Men; but their Success is very inconsiderable, having taken only a Genoese Coral Bark, a Neapolitan Bark laden with Corn, and two Genoese Pinks. One of the latter, whose Crew amounted to 27, tho' deserted by her Companion (the Crew of which made their Escape in the Boat) fought our four Galleys, with only four Guns, a considerable Time, and did not strike till she had been five Times boarded. The Galleys belonging to this Place had upwards of 80 Men killed in the Engagement, and about 120 wounded. The Genoese lost only one Man; but the Turks were so exasperated by their obstinate Resistance, that they massacred two of the Bravest, after they got Possession of the Vessel, and wounded ten others. The French Consul insists that the Vessel and Men be released, as having been taken within Sight of the Island of St. Margaret, contrary to the Treaty with the most Christian King: But 'tis apprehended his Remonstrances will be without Effect, because a French Ship protected last Year the Crew of a Neapolitan Vessel taken by a Corsair of Tunis.

Legborn, August 12. By a private Ship that arrived here some Days ago we are informed, that the Bey of Titri having been ordered by the Regency of Algiers to march with a considerable Body of Troops, to reduce the Inhabitants of some Mountains in the Neighbourhood of that City, he actually found Means to come up with them; but tho' the Rebels were much inferior in Number, they fought so bravely, that they remained Masters of the Field: The Bey having been kill'd in the Heat of the Engagement, his Army betook themselves to Flight. Since this Victory those Highlanders are become so arrogant, that they have rejected all the Terms of Accommodation offered them by the Regency.

The last Letters from Corsica import, that the Malecontents of that Island have desisted from their Enterprize of besieging Bastia, finding it impossible to put it in Execution. The same Advices add, that those Rebels were retired, with the greatest Part of their Troops, towards the Mountains, from whence they frequently send Detachments into the Plain, to pillage the Houses of those whom they knew to be in the Interest of the Republick of Genoa.

Madrid, August 6. We hear from Cadiz, that three Advice Ships, bound to America, only wait for Dispatches from Court to put to Sea; and 'tis pretended they are to carry Orders to the Governors in the West-Indies, relative to the King's Intention to send out the Galleons, as was the Custom before the Ministry of the Marquis de la Ensenada.

Amsterdam, August 24. The last Letters from Smyrna, which are dated the first of July, flatly contradict the Report of Baron Knipshausen's Expedition against the City of Bassora; and add, that the Plague has entirely ceased at Smyrna.

Port l'Orient, August 9. Though several Ships are already arrived from the Coast of Coromandel, we cannot form a right Judgment of the State of Affairs in that Country till the Arrival of the St. Lewis, by which Ship we expect exacter Accounts; and 'tis even thought she may bring Advice of a new Action, as the Governors on both Sides must have prosecuted their respective Plans of Operations, seeing they could have no Intelligence of the Convention on the Tapis in Europe between the two Companies. The Astrea Frigate was destin'd to set Sail for the East-Indies as soon as this Convention shall be signed; but as the Time is uncertain, she is come up into the Harbour again, and is unrigged. However, 'tis said that the Diana is ordered to be kept in Readiness to go upon the same Errand, as soon as the said Convention shall be concluded.

Paris A-la main, Sept. 1. Several Letters from St. Hyppolite, in the Diocese of Alais, advise, that a Protestant Minister who was found Preaching in the Cevennes, was taken up, tried, and hanged the same Day. The Master of the House where he preached, and several other Persons, are also taken into Custody, and are now actually under Prosecution.

Lisbon, Aug. 12. The Difficulties respecting the Exchange of certain Possessions of Spain in Portugal and Brasil having arisen under the Ministry of the Marquis de la Ensenada, his Disgrace gives us Room to hope that some new Convention may be made about this Affair. Mr. Castres, the British Envoy here, has received a Letter from Mr. Keene on Occasion of the said Marquis's Fall, containing the following Passage: "His Majesty, the King of Spain, to the great Satisfaction of the Publick, has annexed the Department of the Indies to that of Foreign Affairs, which Mr. Richard Wall holds. I think we have Room to promise ourselves much Good from this Disposition."

His Majesty is recruiting and augmenting his Troops with all possible Diligence.

Madrid, Aug. 6. Those who have been concerned in Fingering the publick Money under the Ministry of the Marquis de la Ensenada, are ordered to give an exact Account of the Sums that have passed through their Hands since the Year 1750, the Time when the said Marquis began to be charged with the chief Direction of the Finances.

Madrid, Aug. 13. The Marquis de la Ensenada fell ill upon the Road as he was carrying to Grenada, upon which the Officer, who has the Care of him, sent an Express to acquaint the Court, that the Physicians were of Opinion that he ought to rest some Time on Account of his Health; but the King sent back Orders that he should continue his Journey, which he accordingly did. His Majesty has thought proper to suppress all Pensions, &c. granted by that Minister, excepting such as were given to Officers on Account of Services done their Country, and those granted to the Widows of Officers, who died in the Service.

LONDON.

August 24. Tuesday last arrived in the River, the Earl of Chesterfield, James Lindsey, from Boulogne in 17 Hours, after safely landing the grand Present of Turtle for the King of France; Prince of Conti, &c.

Sept. 3. By private Letters from Madrid of good Credit we are informed, that immense Sums were found concealed in the Houses of the Marquis de la Ensenada, and Don Ordinana, one of the principal Officers of the Council of the Indies, and a prodigious Quantity of Silver Plate, besides a Service of massy Gold Plate, that was carried to the King, at Sight of which his Majesty expressed great Surprize. In the House of Don Ordinana there was found in a Chest seven Millions of Reals Vellon.

Sept. 5. Letters from the Morea advise, that the 15th of July last, about Eight at Night, a violent Shock of an Earthquake was felt all along that Coast, particularly near Lepanto, where nine populous Villages were swallowed up, and a great Number of Persons as well as Cattle, lost.

Sept. 7. They talk at Vienna of a new Treaty, whereby all the contracting Parties in the Treaty of Aix-la-Chapelle are to unite, in order to maintain the Execution of the Clauses stipulated therein. Before their Imperial Majesties set out for Bohemia, the Vis-

count d'Aubeterre, the French Embaſſador, was invited to a Conference on this Subject by the High Chancelior, Count Caunitz; and 'tis ſaid his Excellency gave very favourable Anſwers, particularly with Regard to the Affairs of Italy. The Empreſs Queen has ſent Inſtructions on this Head to her Miniſters at London and Paris.

Sept. 8. They write from Naples, that in the Letter which the King of Spain wrote to his Sicilian Majeſty, on his depoſing the Marquis de la Enſenada, his Catholick Majeſty expreſſes himſelf thus: "I honoured the Marquis de la Enſenada with my Confidence, and I entruſted him with the principal Affairs of the Monarchy, in Hopes that he would make the Happineſs of my Kingdom, and the Eaſe of my faithful Subjects, his whole Study: But the publick Calamities having only increaſed during his Miniſtry, and being at laſt become exceſſive, I have been affected with the Miſery to which my People were reduced; the Evils they ſuffered have excited my Compaſſion, and I have withdrawn my Favours from a Miniſter, whoſe Conduct has been ſo directly oppoſite to my paternal Intentions."

BOSTON, October 21.

Friday laſt Capt. Edwards arrived here from London, but laſt from Halifax, and by him we have Advice, That the Honourable Jonathan Belcher, Eſq; Chief Juſtice of the Province of Novascotia, was arrived at Halifax, from London.

NEW YORK, October 28.

On Monday laſt the General Aſſembly of New-Jerſey were prorogued to the 22d Day of November next: We hear they have prepared the Draught of a Bill to be ſent home for his Majeſty's Approbation, for ſtriking £ 70 000 in Bills of Credit; £ 10,000 of which is to be given to his Majeſty towards aſſiſting to diſpoſſeſs the French at the Ohio; and the other £ 60 000 to be lett out to Loan; the firſt Intereſt to ariſe thereon, to be applied to ſink the £ 10 000, and the next towards ſinking the Money now out-ſtanding iſſued on the late Canada Expedition.

Captain Davis in 4 Days from the Bar of North Carolina, brings an Account: That on the 13th and 14th of this Inſtant, They had a very hard Gale of Wind there, at N. E. which has done much Damage; the Town of Portſmouth at Ocricock Bar was overflowed ſo that they went round it in Boats, moſt of the Store Houſes received a Deal of Damage; a large Snow from Whitehaven, Capt. Shaw, is a Shore, and likely to be loſt, as were ſeveral ſmall Veſſels, which have ſince got off again. Capt. Davis was coming out juſt before the Gale came on; he came out in Company with Capts. Bates, Conaway, and Spence for this Port. Capt. Wardell of this Port was ſafe arrived, and Captain Savage of Philadelphia; two Sloops from New London came in as he was coming out.

Capt. Lawrence in 12 Days from the Virgin Iſlands, informs, That the Capts. Hunter, Shannon, and Sawyer, were ſafe arrived at their ſeveral Ports in the Weſt-Indies from this Place; and that the Hurricane was not ſo ſevere among the Iſlands as was imagined.

Our Intelligences from St. Kitts, received ſince our laſt, are, That on the 13th and 14th of September, they had a hard Gale of Wind, which did conſiderable Damage to the Iſland in deſtroying of the old Canes: That five Veſſels were drove aſhore, of which one was a Brig belonging to the Iſland. George Gyſn, Maſter, loſt.

By ſeveral Veſſels from the Muſqueto Shore, arrived here laſt Week, we learn, That the Spaniſh Fleet mentioned in our laſt to have chaced Capt. Thomas of this Port, and ſeveral other Veſſels near the Bay of Honduras, ſoon after enter'd one of the Rivers belonging to the Bay, where it was thought they purpoſed to make their intended Settlement.

We alſo learn, That Governor Pitts was well prepared to receive any Attacks of the Spaniards.

The Snow Unicorn, Capt. Wallace, from New-York, arrived in the Cove of Cork the 27th of Auguſt laſt. As alſo the Rebecca, Leak, from Philadelphia.

Extract of a Letter from Black-River at the Muſqueto-Shore, September 14, 1754.

"*As to Logwood, I have no Occaſion to ſay much about it, more than to aſſure you, the Engliſh may leave all Hopes of ever getting a Stick of that Commodity from thence; as the Spaniards are actually in Poſſeſſion of it, and, we are informed, building Fortifications at the River's Mouth.*

"*As for Sarſaparilla, that is a Commodity as ſcarce as it has been plenty, and ſo hard to be come at, that for ſome Time paſt, the Settlers on the Shore have ventured their Intereſt 100 Miles in Queſt of it, without any Succeſs it being all gathered; and imagine, that there will not be Four Thouſand Weight on the whole Shore for theſe Twelve Months, except what Mr. Pitts may chance to get from the Spaniards, who complain of the great Scarcity amongſt themſelves.*"

Friday laſt the Reverend Mr. Langborne embark'd on board Capt. Taylor, for Georgia, having very much recover'd his Health in this Climate: During his Reſidence here he obliged the Inhabitants of this City, with ſeveral excellent Diſcourſes from the Pulpit, deliver'd with the Spirit of a primitive Chriſtian, the Emphaſis of a fine Elocution, and the graceful Authority of a compleat Pulpit Action.

By the Coffee-Houſe Book it appears that 150 Sail of Sea Veſſels arrived in this Port, ſince the firſt of Auguſt laſt.

PHILADELPHIA, October 31.

From Choptank, in Maryland, there is Advice, that Captain James Berry was arriv'd there from Jamaica, and inform'd, that in the Gulph of Florida he was boarded by a Spaniſh Pyrate, who rifled his Veſſel of every Thing that was valuable, ſtript him and his Men of their Clothes, took what Money they had, and then let them go. The Veſſel the Spaniards were in was a black Schooner, Bermuda built, with a white Bottom, and had but eight or ten Hands on board.

By Capt. Lownes, from Antigua, we are informed that the Loſs ſuſtain'd there by the Hurricane, was not near ſo great as mentioned laſt Week, there being but three or four Veſſels, beſides ſmall Craft, aſhore, and theſe all got off, but one Sloop from the Northward. He likewiſe informs of the Arrival of Capt. Joy in that Iſland from this Place.

Captain Henderſon, from Cadiz, adviſes that Captain Gardner, from this Port, was arrived there.

Since our laſt Captain Broderick arrived here from Holland with Palatines.

Laſt Week, at a Court of Oyer and Terminer, held in Newtown, Bucks County, two Men received Sentence of Death for Houſe-breaking.

Yeſterday one of our Pilots came up from the Capes, who ſays, the Night before he ſaw a Veſſel there, which had on board the People of a Ship call'd the Charming Polly, that had been caſt away; but the Captain's Name, where ſhe belong'd, or where loſt, he could not tell.

There are now in this Harbour 48 Ships, 19 Snows, 16 Brigantines, 8 Schooners, and 22 Sloops; in all 113 Sail.

On Sunday laſt arrived in this City, a young Woman, aged about 19 years. The Account ſhe gives of herſelf is, That when ſhe was about 7 Years old ſhe was taken Priſoner, in Company with two other young Girls, by ſome French Indians, at her Aunt's, whoſe firſt Name ſhe remembers to have been Lydia, where ſhe, with other Children, was taught to read, &c. The Indians carried her to their Village, where, after being kept about a Year, ſhe was ſold to the French, at a place called the Three Rivers, below Quebeck. That about 15 Months paſt, a Letter came from her Mother, which her Maſter kept, after he had cauſed it to be interpreted to her; ſhe underſtood it to be dated from Philadelphia, and that her Father, whoſe Name ſhe believes was Richard Tell, *was dead, and her Mother was married again to a Perſon whoſe Name ſhe has forgot, but thinks he was a Joiner by Trade. Upon the Reception of this Letter, ſhe made earneſt Application to her Maſter for Leave to return to her Relations, which, after a Year's Delay, ſhe, with Difficulty, obtained, and, by Order of the Marquis Duqueſne, Governor of Montreal, whoſe Paſs ſhe produces to that Purport, ſhe was conducted to Albany, where ſhe ſaw the Perſon that had forwarded her the Letter, who told her it came from Philadelphia. She was kindly entertained at New-York, from whence ſhe produced an ample Paſs, ſigned by the Mayor. She remembers, that before ſhe was taken, her Father lived near ſome City, which, from the above-mentioned Circumſtances, ſhe is inclined to believe is Philadelphia; nevertheleſs her Enquiry after her Relations has hitherto proved unſucceſsful, from whence it is to be doubted, whether ſhe may not be miſtaken with regard to the Province ſhe was made Priſoner from, which is not to be wondered at, conſidering how young ſhe was when taken. All well diſpoſed People are deſired to make what Enquiry they can, in order to aſſiſt this unhappy Perſon to the Knowledge of her Friends and Relations, and if they meet with any Succeſs, to acquaint the Printers therewith.*

SCHEME

Of a LOTTERY, for raising 3000 Pieces of Eight, for the Use of the ACADEMY at Philadelphia.

THE Purchase of Ground and Buildings for the Academy, the Alterations and Improvements that were necessary to accommodate the Scholars, and the furnishing of the several Schools, having, all together, prov'd an Expence far beyond their first Expectation, the Trustees, desirous as soon as possible to compleat their Plan, for the Good of the Publick and of Posterity, find themselves under a Necessity of obtaining some Assistance by way of Lottery: And as several Lotteries have, since the Founding of this Academy by Subscription, been carried on and encouraged here, for the Benefit of Schools and Colleges in the neighbouring Provinces, 'tis hoped it will not be thought less reasonable that we should at length have one for the Benefit of our own. Those who in this way have lately contributed liberally to Matters of mere *external Ornament* to the City, will doubtless more chearfully encourage the Academy; an Undertaking which aims at *adorning* the Minds of our Youth with every Excellence, and rendering them really useful and serviceable Members of Society.
